Subject: [EXTERNAL] Pipeline

Good morning,

I'm sending you this email because of that pipeline they you are willing to work with by running it through South Memphis! This is nothing more to die off our community in years to come. Lets not think about money think about our lives and our kids in the near future. This is a great community and we deserve better and need our drinking water to stay as clean as other people.

But we as a community know that the color of our skin makes this an easy target, because no one cares about our area or our people! Please for once think of others and not your pockets! Thanks for reading and thanks if you dont!!
